ABOUT ME:

Driven individual with a Master's in Computer Applications, looking for a position that offers opportunities to work with the latest technologies and enhance my skills.

WORK EXPERIENCE:

Software Development Intern

Codepth , Om Sai Arcade, Bhubaneswar, India [09/2023 - 02/2024]

- Implemented and maintained frontend components for a dating app (HINT), ensuring a seamless and intuitive user experience.
- Collaborated with the design team and backend developers to translate Figma design into responsive and visually appealing interfaces.
- Create interfaces for various features, including real-time chat, user profile creation, and the capability to swipe through other user profiles.
- Participated in code reviews, debugging, and performance optimization tasks.

RELEVANT PROJECTS:

FONGARD - Mobile Defense Partner [2024 - Present]

- Developed Fongard, a comprehensive mobile protection platform, offering diverse plans for damage and screen protection, along with extended warranties.
- Utilized Figma for design, React and TailwindCSS for responsive interface development.
- Implemented secure user authentication via Firebase, integrating Firestore for real-time data storage.
- Enhance functionality with Phonepe gateway for secure payments.
